

BLOOM LEADERSHIP

GROW YOUR LEADERSHIP WITH MINERVA BC

Minerva BC is a Vancouver based not-for-profit that is dedicated to advancing the leadership of women and girls. We support and mentor individual women and girls in our programs as they work to identify their values, discover their strengths, and develop their leadership skills.

The Bloom Leadership program recognizes that newcomers and immigrant women in Canada encounter unique challenges during their transition to a new country, culture, and workforce. This program harnesses the lived experiences and skills these women bring with them and creates space to unlock and celebrate their leadership.

This virtual program consists of:

10 weekly sessions with expert facilitation of 5 learning topics

A personal leadership workbook with resources and activities to create room for reflection and learning.

Guest speakers who will share their experiences and perspectives on leadership topics.

A space for learning in community to build a supportive network of inspired women.

Benefits to Participants

Empowerment

Increases self-esteem and self-awareness, enabling participants to advocate for themselves and communicate with confidence.

Community and Support

Provides opportunities for participants to form valuable connections and relationships, amplifying their personal and professional development.

Leadership Skills

Identifying individual strengths, values, problem-solving, and communication skills to empower women in the Canadian workplace.

Benefits to your Organization

Have your employees gain a deeper understanding of their **values and strengths**, contributing to a more empowered and cohesive team.

Enhance your organization's **leadership capacity** and performance through participants learning valuable skills, increasing their knowledge, and updating their leadership toolkit.

Enhance collaboration and performance, as participants **build stronger connections** with their peers.
